

INS_106

In most applications, Install this bulb just like any other standard type bulb. Use alcohol on a pad to clean the bulb glass after installation. Some sockets may require the length of the indexing pins to be reduced. Using a hand file, gently file the end of the pin until the bulb fits your socket.

* **WARNING:** This quartz halogen bulb operates at HIGH TEMPERATURE. due to the high temperature, it is recommended that this halogen bulb be used with glass lenses and metal housings. Use of this halogen lamp with plastic lenses and plastic housings is at the risk of the user.
